Product Description

Luxury meets functional

Rigid boxes can take up quite a bit of space, and not every business has the real estate to store hundreds of pre-assembled boxes at their retail locations. With collapsible rigid boxes, you can keep them flattened and quickly assemble them when needed.

Minimized shipping costs

Non-collapsible rigid styles can be costly to ship around due to how much volume they take, ultimately increasing the number of shipments needed. With foldable rigid boxes shipped flat, you can reduce your costs

due to the reduced number of shipments.
