### Corrugated box:

The custom-made corrugated packaging box is a good way to do both the protection job and the selling job. Our clients love to use the full-color printing corrugated box because they want to protect the inside product better. Some merchandises like glasses, cups, mugs, wine bottles, and some other fragile products are much better to use the corrugated paper box as the first packaging. The reason is not only the corrugated paperboard can absorb the force of percussion, but also it is flat-pack shipped like the normal single wall folding carton.
