Because of its recyclable characteristics, brown paper bags are more and more sought after and favored by major businesses under the trend of everyone starting to pursue environmental protection. Kraft paper color is very much, have ecru, yellow kraft paper, white kraft paper, black kraft paper and so on, even the two sides of color with a piece of kraft paper can make it different. In daily application, white kraft paper can mainly be used for printing, there is a certain whiteness, many printing plants will find this kind of paper to print, and yellow kraft paper is generally used as a paper bag packaging more.

The Difference Between White And yYellow Paper:

1. The color is different

Common kraft paper is basically white and yellow, I believe everyone is very clear, white kraft paper is double-sided white, yellow kraft paper is yellow, there is a kind of coated kraft paper is one side yellow side white. Color of kraft paper of course has these a few kinds only not only, of contact much nature understood.

2.the purpose is different

White kraft paper is mainly used for printing, and many printing houses use it for printing. It can also be used for envelope bags, file bags, handbag bags, handbag bags, shopping bags. At the same time, yellow paper is generally used for packaging materials, all kinds of high-grade goods packaging, such as wine boxes, sports clothing gift boxes; File bags, such as culture, education and health, enterprises and institutions of the file preservation; Standard envelopes, such as the common postal special cover; It can also process shopping bags, such as shopping bags common in shopping malls and brand stores or used for cardboard hanging paper, etc.

3. The prices are different

White leather is some more expensive than other colors of kraft paper, the main reason is that material for the third point to the above mentioned aspects, the biggest factor is the difference between a material and also is domestic and imported white kraft paper, white kraft paper imports and a lot more expensive than domestic, not imported and domestic problem is our domestic output to paper is not so good foreign production of paper quality.
