Product Description

New Design Personalized Holiday Card Christmas Greeting Cards With Gold Words Folded Cards

Here at our factory, customizing your prints is as simple as ordering online. We have many ways you can customize your cards. Here are some customization options that you can use:

Greeting card size	The standard card size: 5" x 3.5" We can also make it following your requested size and design
Die-cut Shape	The regular rectangular shape Rounded corners Half-circle side Oval Shape Or any shape you want
Materials	10pt cardstock, 14pt cardstock, 16pt cardstock Usually we recommend 16pt cardstock
Print Sides	Front or Front & Back
Coating	You can choose between matte, gloss, and uncoated. These coating can make your cards appear more attractive and eye catching. We also offer UV coating that makes it scratch-resistant. You can choose to coat the whole card or just a part of it.
Envelope	You have an option to order your cards with envelopes
Delivery time	3-5 days
Customized logo	Acceptance

cards, personalised xmas cards, 3D Christmas cards, envelope, leaflet, brouchers, booklet and all different kind of paper bag, paper box,

corrugated boxes, Rigid cardboard boxes etc.

FAQ

1. May I ask if you were doing personalise gift cards?

We do not do actual Gift Cards (or prepaid debit cards) but we do have *Gift Card Holders* or *Gift Certificates* and *Gift Certificate Holders*.

2. We want to draw on the greeting cards using a marker or color pencil to add personal touch to the cards, is that possible with matte coating? Or should we choose the uncoated option?

If you wish to write on the cardstock, uncoated is the best choice. You may also opt to get our gloss or matte material though excellent writeability is not guaranteed. If you will be using a permanent marker, it'll need sufficient drying time.

3. Can we have a photo of our Church on the front of the card? Can a message be printed on the inside?

You can definitely submit a PDF copy of the artwork that you would like us to print. You may choose inside and outside printing and submit the print ready design in a PDF format. The artwork that you will submit should be in CMYK color mode due avoid drastic color changes when we process your file. Also, changing your artwork to CMYK will ensure the accuracy of the colors in the finished printout. We can send you a digital proof for your to see how it's going to look like before we send it to press

4. Do you have options which fold on the vertical edge (side) and not the horizontal edge (top)?

This can be arranged. You may add the item on to cart with the correct size and indicate a half fold. Then you need to call us and speak to a Custom Representative who will set up the invoice for production to follow your folding instructions.

5. Can I use "Canva" for my template and send to you for greeting cards

Yes, you may design on Canva as long as it is saved as a PDF file and has 250-300 DPI resolution.
