#### Box Style:

#### **Different Box Styles and Materials of Makeup Boxes**

YM Packaging offers custom box styles that suit your product's shape, size, and weight and match your marketing goals. You can count on us to supply everything from your stock makeup packaging (no print) to your full-color custom branded printed makeup boxes with sleeve.

Custom makeup boxes with inserts come in a range of classic styles - the most common being the straight tuck end. This box style is super easy to assemble as it features a top and bottom that both tuck into the same side of the box.

But that's not the only box style of makeup box with logo we offer. Whether you want a reverse tuck end box, an auto bottom box or a snap-lock bottom box, no ask is out of bounds to our custom packaging specialist team. Plus, if you don't know where to get started with custom boxes, our team is on hand to assist - free of charge!

Make your products stand out in-store or online with the custom box materials of your choice. Some of the most popular options for custom luxury makeup boxes with logo include:

#### **Folding Cartons**

Our folding carton boxes are made of thin and flexible cardstock (mainly linen stock), which is best for medicine, soap, small cosmetics, sweets, and similar lightweight items.

#### **Corrugated Packaging**

Our team can customize makeup packaging boxes with logos of corrugated board for heavier products, perishable goods, or items expected to be handled with rough. These custom boxes are great for wine bottles and glass containers holding spices, beauty cream, etc. Corrugated boards are highly recommended for point-of-purchase (POP) displays. Corrugated cardboard and corrugated material can be small enough to fit on checkout countertops or large enough to place beside display shelves.

## Rigid Boxes

YM Packaging can help elevate your brand through design support and finishing that will make your box look giftable, whether it contains consumer electronics, a piece of jewelry, a set of chocolates, a perfume bottle, or a skincare pack.

Cosmetics  
Personal Care  
CBD  
Pharmaceutical  
Home Decor and Candles  
Candy and Confectionery  
Beverage Distribution  
Pet Care  
Vape Products

## FAQ

### Q: What are the defining characteristics of rigid boxes?

**A:** Rigid boxes or setup boxes are made from a thick cardstock and are finished with a paper wrap or fabric liner. These boxes are structurally very strong and significantly thicker when compared to regular folding cartons.

### Q: Do custom rigid boxes need to be assembled before they are used?

**A:** No assembly is required as custom printed rigid or setup boxes are shipped ready to use.

### Q: Why should our company switch to branded rigid packaging?

**A:** Rigid packaging offers an upscale option for packaging luxury products such as jewelry, branded accessories, and electronics. Rigid boxes add a sense of quality and luxury to your brand along with offering excellent protection for your products during the sale process.

### Q: How long do rigid boxes last?

**A:** Rigid boxes are paper-based products and thus are sensitive to storage conditions such as heat, sunlight, temperature, and moisture. Sudden changes in environmental conditions can negatively affect the quality of such paper-based products. All printed products including rigid boxes should be unpacked after delivery for inspection and identification of any manufacturing issues. After inspection, all printed products including rigid packaging should be stored in moisture-free and temperature-controlled conditions.

In addition, unfavorable storage conditions such as moisture, extreme heat, or direct sunlight can cause damage to printed materials including discoloration and fading of printed colors. Packagingblue makes no claims or representations regarding the long-term durability of printed products as the longevity of all printed materials including rigid packaging depends upon environmental and storage conditions that are beyond Packagingblue's direct control.

### Q: Can you help me in designing rigid setup boxes for my products?

**A:** Our design team will be happy to design a unique box to showcase your products. If you would like to provide your own artwork, we can prepare and send an appropriate design template for you to use. If you would like our help in creating your design, please send us your logo and/or other artwork and our design team will set it up as per your requirements.

### Q: Do you offer protective product inserts?

**A:** Yes, we offer a full range of custom inserts that are made to provide a snug fit for your products. Your sales representative can provide more details upon request.
